Mohammed Abdul Hamid Mohammed Al Abri

Application Security | .NET Developer

imohammedalabri@gmail.com + 968 98964622 Muscat, Oman linkedIn GitHub

PROFILE

Computer Science graduate (Sultan Qaboos University) specializing in Cybersecurity, combining full-stack .NET development with a security-first mindset. Led a 4-person team in the Tamayuz program to deliver an ASP.NET Core platform with JWT authentication, Argon2 hashing, role-based access, and Thawani payments. Built an ML-based vulnerability scanner as a graduation project and gained hands-on SOC and AppSec experience at Ooredoo. Currently building LLM-powered applications in Python.

EDUCATION

Bachelor's Degree in Computer Science, *Sultan Qaboos University* 09/2020 – 02/2026 | GPA 3.56
Specialized in **Cybersecurity and Computing Infrastructure.**

General Education Diploma, *Dhirar bin Al-Azwar School* 2020 | 96.7%

TRAINING EXPERIENCE

Full Stack .NET Developer & Team Lead, Tamayuz Program 04/2026 – Present | Muscat
Codeline/Rihal Bootcamp

- Led a 4-person team as Team Lead, owning architecture decisions, branching strategy, and code reviews across 53 tracked issues and two sprints.
- Delivered the complete platform with an ASP.NET Core backend and TypeScript/Bootstrap 5 frontend, then ported the frontend to Angular with 34 components, route guards, and unit tests.
- Trained in full-stack .NET development: C#, OOP, ASP.NET Core, Entity Framework Core, and frontend fundamentals.

Full Stack Development Intern, *Rihal & Codeline* 07/2025 – 09/2025 | Muscat

- Built a Customer Support Ticket System with a team across three Agile sprints, using Git-based workflows and API integration.
- Owned security, role-based access management, and online deployment with data migration, keeping user data protected in production.

Information Security Intern, *Ooredoo* 06/2024 – 08/2024 | Muscat

- Rotated across SOC, Application Security, GRC, and Network Security teams, gaining exposure to enterprise security operations.
- Supported SIEM-based monitoring and incident response processes, and contributed to DLP compliance audits.
- Gained hands-on exposure to firewalls, Privileged Access Management (PAM), VPNs, and Secure SDLC practices.

CERTIFICATES

Certified in Cybersecurity (CC)
ISC2

Introduction to AI Tools and Productivity
Ministry of Labour

Metasploit for Beginners
Coursera

Wireshark for Packet Capture
Coursera

SKILLS

Programming Languages
C#, Python, SQL, JavaScript, TypeScript, Java

Security
SIEM, Nmap, Wireshark, OWASP ZAP, MITRE ATT&CK, Secure SDLC

Backend
ASP.NET Core Web API, Entity Framework Core, FastAPI, Angular, RESTful API design, JWT Authentication

AI & DevOps
OpenAI API, LangGraph, n8n, Docker, Git, GitHub Actions, CI/CD

PROJECTS

AI Workflows Engineering, *Tamayuz Program* 10/2026 – Present
Built an LLM-powered chatbot using the OpenAI API, with persistent chat sessions and automated tests. Developed REST APIs with FastAPI, containerized services with Docker and PostgreSQL, and built agent workflows with LangGraph.

Oman Community Services Platform, *Capstone Project (Tamayuz Program)* 07/2026 – 10/2026
A system that lets citizens report local issues (road damage, water leaks, waste) directly to the responsible government department. Designed an 11-entity data model with automatic department routing, status workflows, notifications, and feedback ratings. Built with ASP.NET Core Web API, Entity Framework Core, and SQL Server in a three-layer architecture, secured with JWT, Argon2 hashing, and role-based access, with Thawani payment gateway integration.

Hybrid Automated Vulnerability Scanner for GitHub Repositories 09/2025 – 01/2026
Graduation Project, Team Lead
Led a 4-person team building a system that detects vulnerabilities in source code and third-party libraries using machine learning and real-time National Vulnerability Database (NVD) data. Evaluated multiple ML models to select the most accurate approach, and automated scans on every code change with GitHub Actions.

ACTIVITIES & ACHIEVEMENTS

Representative, *Comex Exhibition 2025* 2025
Represented Codeline at Comex Exhibition 2025, engaging with visitors and promoting the company's initiatives in software development and local talent growth.

Dean's List 2021 – 2024
Recognized for outstanding academic performance, achieving honors and distinction in multiple terms.
